

Cyber Ready™ 2018 Cybersecurity/Cyber-Intel Conference
Monday, May 14, 2018 • 7:45 AM – 4:45 PM
Surf's Edge Club, MacDill AFB, Tampa, Florida
Florida Suncoast AFIO Chapter • National Cyber Partnership

KEYNOTE SPEAKER

Major General Mike Ennis (USMC, ret), CIA National Clandestine Service's first Deputy Director for Community Human Intelligence (HUMINT)

Special topic

Challenges in cyber education—Daniel Stein, DHS Branch Chief for Cybersecurity Education and Awareness

All-audience tabletop simulation exercise

Professor of Law Amos N. Guiora, SJ Quinney School of Law, University of Utah

Currently scheduled conference topics are:

- Effective cyber—the mindsets of various stakeholders and attackers; promoting communications among groups; facing ubiquitous computing, educating everyone on the challenges and threats in the current environment—to some degree everyone must become an educator
- Attack vectors and malware—the role of attacks in “soft” areas including social engineering attack methodology, and the impact of cybercrime (and cyberterrorism), which are becoming more costly and frequent
- Addressing the vulnerabilities and security challenges of innovation—the main challenges to delivering “safe” innovation
- Bridging the gulf between cyber and intel—cross-fertilizing these two domains
- A tabletop simulation exercise with full audience participation with the goal of exposing attendees to situational analysis techniques and the field implications of cyber threats and what is required to address them

The conference will start at 7:45 AM with continental breakfast, feature a luncheon for the keynote speaker and conclude by 4:45 PM. Discount registrations are available for students, AFIO members, government and military. All attendees either must have military ID for base access or clear a security check.
